

Short description

- The **wireless** measuring interface **MESAS tetra bluetooth** is a modular interface with 4, 8, 12 or 16 input ports for various types of transducers (Halfbridge / LVDT) and analogue voltage.
- The modular conception of MESAS tetra bluetooth provides a lot of flexibility due to the fact that up to 4 different types of measuring devices can be combined in one box.
- The receiver, of the size of a memory stick, is plugged into the USB interface of a Windows® XP or 2000 PC.

Wireless transmission of measuring data from the interface box to the measuring computer **by Bluetooth® technology**.

YOUR ADVANTAGE

- No wires between measuring interface and computer
- Transmission range 80 m
- up to 16 inputs for connecting to any standard transducers
- Static and dynamic measurement.

RANGE OF APPLICATION

- Any measuring task, where a high degree of mobility is needed.
- Any application, where the measuring gauge needs to be taken to the parts to be measured.

Highlights

- Mobile transmission by "bluetooth network"
- Easy handling
- 16 inputs for connecting to any standard inductive probe
- Powered by rechargeable battery
- Static and dynamic measuring

Software

- Drivers, Test program and communication software providing COM objects for in-process and out-of process communication with third-party software, like Microsoft® VBA® applications, Visual C, Borland Delphi etc.
- Software requirements
 - Operating system e.g. Microsoft® Windows® 2000 or XP
 - MESAS MQMD software or third-party software programmable for processing of COM objects, e.g. Microsoft® Excel®
(This software is not included in the standard delivery.)

Technical Data

- Measuring inputs:**
- Transducer inputs for Halfbridge/LVDT:
Resolution: 0,1 µm, Range +/- 2mm
Brands: Solartron, IET, Marposs, Mahr, Tesa
... others on request
 - Analogue inputs:
Voltage DC +/- 5V, +/- 10V, 0-5V, 0-10V
... others on request
- Power supply:**
- built in AC power supply
 - option: Built in battery with AC charging unit
- Schnittstelle zum PC:**
- Microsoft® Windows® USB 2.0
- Anschlusskabel:**
- Power cord 2 m for charging unit
- Sizes (W x H x D):**
- 4 Inputs : approx. 125 x 60 x 96 mm
 - 8/12/16 Inputs : approx 260 x 96 x 180 mm
- Weight:**
- 4 Inputs : approx. 500 g
 - 8/12/16 Inputs : approx. 3.500 g
- Protection type:**
- IP 54, NMEA
- Transmission range:**
- 80 m, 360°

Description

- The **measuring and evaluation system**
"MESAS pico15" is the new industrial computer based system with 15-inch display.
- It is the high performance solution for measurement on manually operated, semi-automatic and fully automatic gauges.
- Up to 128 input channels
- Individual programming of measurement cycle control for static and dynamic measuring tasks
- Parallel measurement and evaluation
- Statistical evaluation ref. QS9000

Standard Hardware Configuration

- Motherboard Pentium with 512 MByte RAM
- Hard disk drive with minimum 80 GB Capacity incl. Controller
- Built in CD/DVD burner
- IBM-PC printer port
- Built in, high resolving 15"- Colour-Display incl. Interface
- Connector or keyboard and mouse on front side protective cover
- Interface for connecting 2 off external measuring interfaces MESA tetra
- I/O-Interface with 16 opto inputs and 16 relay outputs,
- PS/2 interface for MESAS softkey pad
- USB interfaces
- Network adapter RJ45
- External spraypoof softkey pad , protection type IP54

Standard Software Configuration

- MESAS MQMD single user measurement software with reporter for Microsoft Windows®
- Operating system Microsoft Windows®

Options

- Measuring inputs:
 - with 16-bit resolution
 - up to 8 internal inputs plus max. 16 external inputs
 - max. 128 external inputs without internal inputs
 - 4 internal inputs for incremental probes replacing the internal standard inputs
- Microprocessor controlled serial interface for MESAS tetra universe/pneu
- Networking interface
- Wireless networking interface
- Touchscreen
- Profibus option
- Additional 16 opto inputs and 16 relay outputs
- Cordless ASCII keyboard and mouse
- Non-interruptible power supply
- External monitor and softkey pad for parallel terminal
- Adaption to other voltages (e.g. 110V / 60Hz)
- Check list programming, creating of part sketches, programming of machine control etc.
- Special programming e.g. FFT(Fast Fourier Transformation), Ovality and camber measurement, classification etc.
- On-screen visualisation for operator guidance
- Data export to Microsoft Excel® format (.csv)
- Data export to Q-DAS qs-STAT 3.x
- Automatic creation of checklists from external machine protocol
- Installation and commissioning, training
- Extended warranty

Technical Data (Standard Configuration)

Power supply:	240 V AC, 50 - 60 Hz (Optional 110 V) power cord 1,5m, incl. filterplug
W x H x D:	approx. 450 x 417 x 480 mm
Protection type:	IP54
Weight:	19,5 kg
Environmental temperature:	0-45 °C cooling by internal air circulation, no filters or fans to the outside
Warranty:	24 months from delivery, at MESAS

Description

- The measuring and evaluation system "MESAS pico15 light" is an industrial computer based system with 15-inch display.
- It is the high performance solution for measurement on manually operated, semi-automatic and fully automatic gauges.
- Up to 64 input channels by external interface MESAS tetra USB
- Individual programming of measurement cycle control for static and dynamic measuring tasks
- Parallel measurement and evaluation
- Statistical evaluation ref. QS9000

Standard Hardware Configuration

- Motherboard Via-CPU with 512 MByte RAM
- Hard disk drive with minimum 60 GB Capacity incl. Controller
- Built in, high resolving 15"- Color-Display incl. graphics adapter
- Connector or keyboard and mouse on front side protective cover
- 4-off USB connectors
- Network adapter RJ45
- External spraypoof softkey pad , protection type IP54

Standard Software Configuration

- MESAS MQMD single user measuring software with reporter for Microsoft Windows®
- Operating system Microsoft Windows®

Options

- Wireless networking interface
- Profibus / Interbus option
- Upgrade 16 opto inputs / 16 opto outputs by external interface MESAS tetra USB
- Touchscreen
- Cordless ASCII keyboard and mouse
- Non-interruptible power supply
- External monitor and softkey pad for parallel terminal
- Adaption to other voltages (e.g. 110V / 60Hz)
- Check list programming, creating of part sketches, programming of machine control etc.
- Special programming e.g. FFT(Fast Fourier Transformation), Ovality and camber measurement, classification etc.
- On-screen visualisation for operator guidance
- Data export to Microsoft Excel® format (.csv)
- Data export to Q-DAS qs-STAT Me XX
- Automatic creation of checklists from external machine protocol
- Installation and commissioning, training
- Extended warranty

Technical Data (Standard Configuration)

Power supply:	110-240 V AC, 40 - 60 Hz
W x H x D:	approx. 450 x 417 x 280 mm
Protection type:	IP54
Weight:	15,5 kg
Environmental temperature:	0-45 °C cooling by internal air circulation, no filters or fans to the outside
Cable length:	power cord 1,5m, incl. filterplug
Warranty:	24 months from delivery, at MESAS

Interfaces

- **MESAS tetra T/P 16**
 - with 16 inputs for transducers or analogue voltage
- **MESAS tetra T/P 8**
 - with 8 inputs for transducers or analogue voltage
- **MESAS tetra universe**
 - individual configuration of input modules for transducers, analogue voltage or current, incremental probes (linear or ROD)
 - 1 to 16 inputs
- **MESAS tetra USB**
 - Modular Interface with inputs for transducers, LVDT, Halfbridge, analogue voltage
 - 4, 8, 12, 16 inputs
 - Fits to any standard Windows® PC with USB 1.1 or 2.0, connector type A
- **MESAS tetra LAN**
 - Modular Interface with inputs for transducers, LVDT, Halfbridge, analogue voltage
 - 4, 8, 12, 16 inputs
 - Ethernet (TCP/IP), Webservice (SOAP)
- **MESAS tetra pneu**
 - for attachment of pneumatic probes
 - 1 to 8 pneumatic input modules
 - up to 8 inputs for transducers

Measuring system extensions

- Additional 16 opto-input and 16 relay-output
- Additional 16 opto-input and 16 driver-output
- Profibus or Interbus interface incl. software
- Interface for attachment of additional external interface boxes MESAS tetra T/P

- Interface for attachment of additional external interface boxes MESAS tetra universe/pneu
- 4-channel RS232-interface to connect 4 peripherals like IRdigit, printer etc.
- Multiport RS232-interface for more than 4 RS232 ports
- MESAS IRdigit external interface for digital measuring equipment: Mitutoyo, Mauser, Sylvac, TESA etc.

Operating peripherals

- External sprayproof operator panel, protection type IP54

- Standard ASCII keyboard ref. DIN 2137 for check list programming (editing of nominals, tolerances etc..)
- As above but membrane keyboard, sprayproof, IP65

- Startbox: 4 start buttons and 2 key switches

- Startbox: 6 start buttons, 2 key switches and 5 lights

- Startbox: 12 start buttons, 2 key switches and 5 lights

- Column with 5 light signals
- Pedal switch

Printer

- Monochrome-Matrix-Printer DIN A4 (type on request)
- Inkjet printer (type on request)
- Laser printer (type on request)

Others

- Option Tool correction
- Networking (Ethernet, Token-Ring, WIN, Novell, TCP/IP, PC-NFS) others on request

Description

MESAS tetra universe is an extremely flexible interface with 16 ports for various types of transducers, analogue signals and incremental probes. The interface box is connected to the MESAS standard io card of a MESAS measuring computer system. Up to 4 MESAS tetra universe (64 measuring inputs) per standard io.

Your advantage:

- Flexibility of a modular system
- Parallel multiprocessor technology provides high speed performance for very precise measuring tasks.
- Resolution variable (12 or 16 Bit)

The attached module list contains the existing standard modules. If the module you require is not included, please do not hesitate to contact us. We are going to design the suitable module for you.

Technical Data

Power:	110/240 V AC, 50-60Hz, 30 VA Automatic adoption to existing voltage
Interface:	MESAS standard io
W x H x D:	330 x 140 x 205 mm
Weight:	3.5 kg
Protection type:	IP 54
Cables:	Power cord 1.5 m with filter plug 1 data cable 2.5 m with 25 pole connector

Transducer modules

with 12 bit -or 16 bit resolution available for:

- Tesa and compatibles
- Mahr
- Hirt
- Metem
- Air-Gage
- Solartron
- Feinprüf
- Mitutoyo
- Marposs
- Knäbel
- Mercer
- Novibra
-
-
- others on request

Analogue modules

with 12 bit -or 16 bit resolution available for:

- Voltage DC \pm 3 Volt
- Voltage DC \pm 5 Volt
- Voltage DC \pm 10 Volt
- Voltage DC 0-10 Volt
- Current 0 - 20 mA
- Current 4 - 20 mA
-
- others on request

Incremental modules

Note: Each incremental module takes two slots!

- Heidenhain Sinus 11 μ A (pp)
- Heidenhain 5 Volt TTL
-
- others on request

Description

- **MESAS tetra USB** is an extremely flexible interface with 4, 8, 12 or 16 input ports for various types of transducers and analogue voltage.
- The interface box is connected to the standard USB port of a Microsoft® Windows® 2000 or XP computer.
- COM Objects allow to read measuring inputs into third-party software like Microsoft® Excel® VBA applications.

YOUR ADVANTAGE

- Huge variety of connectable measuring equipment
- Flexibility of a modular system.
- High Speed Precision Measurement
- Fits to any Microsoft® Windows® 2000, XP PC with USB 1.1 or 2.0 Type A interface

Software

- Drivers, Test program and communication software providing COM objects for in-process and out-of process communication with third-party software, like z.B. Microsoft® VBA® applications, Visual C, Borland Delphi etc.
- Software requirements
 - Operating system e.g. Microsoft® Windows® 2000 or XP
 - MESAS MQMD software or third-party software programmable for processing of COM objects.
 - This software is not included in the standard delivery.

Technical Data

Measuring inputs:**Transducer inputs for LVDT, Halfbridge:**

Resolution: 0,1 µm, Range +/- 2mm
Brands: Solartron, IET, Marposs, Mahr, Tesa
... others on request

■ Analogue inputs:

Voltage DC +/- 5V, +/- 10V, 0-5V, 0-10V
... others on request

Power supply:

- 4 inputs : powered by USB
- 8/12/16 inputs : External AC adapter (110-240V IN, 50-60Hz, 1A, 12 V OUT)

Interface:

■ Microsoft® Windows® USB 1.1 and 2.0

W x H x D:

■ 4 inputs : approx. 125 x 60 x 96 mm

■ 8/12/16 inputs : approx. 260 x 96 x 180 mm

Weight:

■ 4 inputs : approx. 0,5 kg

■ 8/12/16 inputs : approx. 3,5 kg

Protection type:

■ IP 54, NMEA

Cables:

■ Power cord 2 m, AC adapter cable 1,4 m

■ Data cable 2.5 m with USB A connector

■ (max. 5m for 4-channel interface)

Options

- 16 opto inputs / 16 driver outputs (not available for small 4-channel box)
- Rechargeable battery
- Wireless data transmission
